

# The Muslim Brotherhood

## Influencing the curriculum.

In 2003 the American Textbook Council released a report entitled “Islam and the Textbooks.” The report reviewed how seven world history textbooks treated topics such as jihad and shari’a.

The report’s conclusion states: During the last two decades, world history textbooks and the social studies editors who oversee their development have moved from the neglect of Islamic history to self-censorship. **Any textbook negatives about Islam have been erased, replaced by fulsome praise and generalities designed to quell complaints from Islamists and their allies.**

## The Charter Gülen Movement

Thousands of families across the U.S. are sending their children to public charter schools operated by Fethullah Gulen, a powerful Turkish leader who has written of Christianity: *it has become perverted (sapıtmuş), of America that it is 'our merciless enemy' (aman bilmeyen düşman), and of Europe that it has a 'sadist mentality' that wants to crush Islam.*" - translated by renowned economist, author, professor Dani Rodrik.

**The mission of Operation Jericho Project is to encourage pastors and leaders to raise awareness with parents in their congregations or communities about what their children are exposed to every day due to the indoctrination of the federal government educational system. The information in this brochure is documented at:**

## Government School Education is NOT Religion Neutral

Lumberton, Texas: High school girls were made to wear burqas as part of a study of Islam. One student quoted the teacher as saying, “We are going to work to change your perception of Islam.”

The teacher in the burqa lesson, according to a student, also said, “I do not necessarily agree with this, but I am supposed to teach you that we are not to call these people terrorists anymore, but freedom fighters.”

Today's Social Studies textbooks "omit essential data and provide indoctrinating narratives that devalue Israel, Judaism and Christianity in favor of Islam."

Pearson, the world's leading pre-K-20 educational publishing company, is **"dedicated to working with educators to change the way America thinks."**

To accomplish this, today many Social Studies textbooks omit essential data and provide indoctrinating narratives that devalue Israel, Judaism and Christianity in favor of Islam.

Typical is Prentiss Hall's "World History," which devotes a **72-page chapter to Islam** and only **small paragraphs about Judaism and Christianity** which are embedded in other chapters.

One paragraph from page 175 of McDougal Littell's "World Cultures and Geography" about the "Influence of the Church": **Sometimes Native Americans accepted Christianity willingly. Sometimes, though, they were forced to become Christian against their will."**

The authors neglect any further explanations of this statement leading to a negative conclusion about Christianity.

The Five Pillars of Islam is taught in many textbooks but parents won't find the teaching of the Ten Commandments.

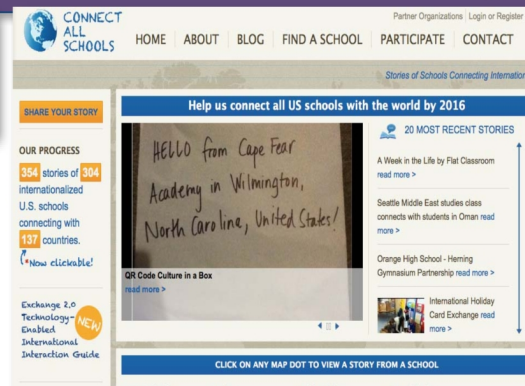

Pro-Islam studies in our public schools are not only in the textbooks, but online as well. Hundreds of U.S. Classrooms are already connected to the online site ConnectAllSchools.org

**WND EXCLUSIVE**  
**MUSLIM BROTHERHOOD GROUP TO 'CONNECT ALL U.S. SCHOOLS'**  
Partners with State, Education departments on international initiative

In 2011 a **Muslim Brotherhood-linked organization**, The Qatar Foundation International, or QFI, partnered with the U.S. Department of Education and the State Department to facilitate an online program known as **"Connect All Schools"** aiming to connect all U.S. schools with classrooms abroad by 2016.

**Vartan Gregorian, a board member of QFI**, was appointed in 2009 to **President Obama's White House Fellowships Commission**.

Gregorian served as a point man in granting \$49.2 million in startup capital to an education-reform project founded by former **Weather Underground terrorist William Ayers** and chaired by **Obama**. Documentation shows Gregorian was central in Ayers' recruitment of Obama to serve as the first chairman of the project, the *Chicago Annenberg Challenge* – a job in which Obama worked closely on a regular basis with Ayers.

With online learning there are no textbooks, printed assignments, or printed tests. **So parents and teachers could be completely unaware** of exactly what the student is being exposed to as they communicate with others in nations that don't share our Judeo-Christian values.

All across the United States, the Common Core state standards has been implemented, and guess who is behind this push: None other than the **Muslim Brotherhood's** number one front organization...

**The Islamic Society of North America (ISNA).**

<http://whatacopneeds2know.files.wordpress.com/2013/01/isna-core-standards.pdf>

The **Muslim Brotherhood Manifesto** explains their goals for influencing American culture. On page 22 it states: 8-Absorbing Muslims and winning them with all of their factions and colors in America and Canada for the settlement project, and making it their cause, future and the basis of their Islamic life in this part of the world.....

**Qatar's influence in American education is very concerning.** Wahhabi-ists have one goal and that is the spread of Islam worldwide... Qatar is home of AlJazeera and funders of Muslim Brotherhood.

**Common Core Initiative Standards (CCIS)** is linked to **...'Connect All Schools.'**

The organization **One World Education (OWE)** is listed on the website and claims alignment to Common Core state standards. <http://www.connectallschools.org/about/partners/one-world-education>
